Summary

Description English: The new book presents readers with a detailed look at the business—and the friendships—which characterize the world of big art galleries, high-profile artists, and important collectors. The thesis of the book is the history of the collaboration between Terrance Lindall and Robert J. Wickenheiser in producing the Gold Illuminated Elephant folio, but it contains much, much more. It is an excellent point of departure for students of art and literature, collectors, and people curious about what transpires among artists and patrons who share a love for unique artistic expressions—and who are committed to preserving the legacy of John Milton.

long-overdue! I am honored to share his
friendship and to have been able to add
several original works by him illustrating
Milton's *Paradise Lost* to my Milton Collection
in Rare Books & Special Collections at the
